No Prouder Musical Fame "Eighty-Two Years Ago"--The First Hallet and Davis Piano Was Born

FIFTY YEARS AGO

at Paris, 1867 international exposition, the Hallet & Davis Piano raised the American piano into the world's leadership. Today no piano presents a more worthy claim of superiority. Artists, teachers, composers and music lovers have turned with perfect faith all through piano history to the unfailing quality and the dependability of these pianos. It is not necessary to purchase a make of less musical worth. We sell these illustrious pianos on moderate terms.
